## CRACK RIDER IN TROUBLE

MACK GARNER REAPS DISQUALIFICATION AND LONG SUSPENSION FOR ROUGH RIDING.

Waterblossom Runs a Fast Mile Under Heavy Weight

Marse Henry First, but Is Set Back for Foul Riding—Winter Racing Plans.

Cincinnati, O., October 12.—The running of the Columbus Handicap, in which the better grade of youngsters at the track took part and intended as the feature of the card at Latonia today, brought with it the chief incident of the racing. Marse Henry, owned by former Senator J. N. Camden, finished first by a narrow margin over Milestone and Lady Always, but was promptly disqualified for fouling Checks about an eighth from the finish. The foul was palpable and took place in full view of the spectators in the stands. In an effort to make Garner desist from crowding Checks, Martin resorted to the use of his whip and belabored Garner with it in lusty fashion for about twenty yards. He then took his mount back and this was responsible for Checks' failure to take a place. The judges awarded the purse to Milestone with Lady Always second and Big Fellow third. Jockey Garner was suspended for ten days, while no action was taken against Martin, the officials evidently holding that he was justified in striking Garner for his rough tactics.

T. C. McDowell had designs on three of the afternoon's purses, but only succeeded in capturing one when his good filly Waterblossom beat Vogue and Lady Rothera home. The winner's effort was a sparkling one for she ran a mile in 1:28 under the heavy impost of 119 pounds. Lady Rothera might have given the winner stronger contention but for Henry's action in taking her back on the lower turn when going fast and later losing ground by a wide turn into the stretch. Liberator, another from the McDowell stable, was unlucky to lose the purse in his race, for Chartier, ably ridden by Guy Garner, only got up in the last stride to head him. Checks' mishap in the handicap, due to Garner's rough riding, brought about his failure.

Summerlike weather and a good card were instrumental in bringing out an attendance of holiday proportions. Speculative action was keen, but the defeat of several of the best backed choices caused the general public to sustain a big deficit.

The Elrod special for Juarez, which will leave here October 30, will take aboard all the turfmen and horses from here that intend to race at the Mexican course in the coming winter. It is intended to send the first shipment from here to New Orleans November 3 and a number of owners have spoken for space on this train. It is intended to have both the Juarez and New Orleans specials run on passenger schedule and they will both have sleepers and diners attached. Among those who will go to Juarez are J. C. Mcensetter and J. M. Henry and their horses. "Bob" Rogers' horses will be shipped to Havana for the winter meeting there.

Latest advices from the hospital where jockey Carl Ganz is an inmate, are that the rider is still unconscious and regarded as being in a precarious condition. All his relatives arrived from Louisville this morning and are at his bedside. Everything that can be done for the injured rider is being resorted to. Several eminent brain specialists from Cincinnati were called in to give him attention and it may be deemed expedient to perform an operation in an effort to save his life.

Silver Bill and Charlie, winners of the two-horse mutual combination, yielded \$40.35 for \$2.

T. C. McDowell contemplates selling some of his horses at auction before the close of the Latonia meeting.

Latonia work-outs on a fast track today were: Almada Lawrence—Mile in 1:45. Black Toney—Three-quarters in 1:20. Bill Simmons—Five-eighths in 1:03. Brizz—Three-eighths in 37. Chevon—Mile in 1:44. ## GENERAL NEWS NOTES OF THE DAY.

Sir John French's report of the recent bloody engagements near Ypres has been made public and in part says: Further information shows that the British attack on our front south of La Bassée canal on the eighth was made in great strength. The main German efforts were directed against the chalk pit north of hill seventy and between Hulluch and the Hohenzollern redoubt. In the chalk pit attack the British were 300 to 500 yards from our trenches, which he fired to 500 yards from our trenches. Between these woods and our line the attack was mown down by a combined rifle, machine gun and artillery fire, not a man getting to within forty yards of our trenches. Farther north, between Hulluch and the quarries, the attack was similarly beaten off, with a heavy loss, and here our troops, following up the beaten enemy, captured a German trench west of Cite St. Elie. The enemy only succeeded in penetrating our front line at one point in the southern communication trench of the Hohenzollern redoubt, which is still in our hands. Here he was promptly driven out by our bombers. Our reserves were not required at any part of the front. It is certain that we inflicted a very severe reverse on the enemy. Our casualties prove to be even less than the first loss estimate. The report in the German official communication of the ninth that a strong British attack northeast of Vermelles failed with great loss is entirely false.

A dispatch of yesterday from London says: Bulgaria's attack on Serbia has begun, according to an Athens dispatch received by the London Times to-day. The Bulgarians crossed the frontier, said the Times message, at Garibogaz, near the Serbian city of Kniazhevatz. The Bulgarians had been concentrating for several days on their own side of the international boundary are engaged in the attack on the Serbian divisions near Kniazhevatz, said an Athens message received by the London Star to-day. Kniazhevatz is about thirty miles from Nish, Serbia's temporary capital, which is on the railroad the allies must traverse from Saloniki if they are to help the Serbians to resist the Austro-German advance. Thus the Bulgarians are striking both at the Serbian line of communication for heading off the Teutonic forces' drive on Constantinople. General von Mackensen's Austro-German army, about 150,000 strong, was still pushing forward, at latest accounts received here, to the southeastwards; also in the direction

## INTERESTING FEATURES IN THE ANCESTRY OF THUNDERER, THIS YEAR'S FUTURITY WINNER

By DR. M. M. LEACH

Lightning, I believe, is popularly supposed never to strike twice in the same place. However, the special brand of Jersey Lightning to which Thunderer belongs has hit the mark two years in succession. Last year Regret, Thunderer's sister, won all the three races in which she took part, as has Thunderer this year, and by winning the Futurity, worth this time the goodly sum of \$16,500, has placed his sire, Broomstick, for the third successive year at the head of the winning stallion list, and also puts Hamburg, sire of his dam, Jersey Lightning, in a corresponding position as the champion broodmare sire of the year. Seventeen of Hamburg's daughters have so far produced twenty-two winners of forty-seven races worth \$51,000, quite a respectable total as times go, and it is to be expected that Hamburg's total will reach \$60,000 before the close of the year, for there are nine on to four months of racing yet to be brought off. Hamburg, too, is certain to find a place among the first twenty winning stallions and the only other stallion which holds the double distinction of having a place in both lists is John Madden's seventeen-year-old stallion, Star Shoot, son of Isinglass and Astrology, by Hermit.

Hamburg himself was foaled so long ago as 1895 and when he died Friday was therefore twenty years of age. I had not seen the horse since he was purchased for \$70,000 by his present owner at the Whitney dispersal sale held at Madison Square Garden in October of 1904. I then predicted the success of Hamburg's daughters as broodmares, and why? Because of the fact of his Herod descent in tall male and that his dam, Lady Reel, is by the Matchem horse, Fellowcraft, son of imported Australian. From what source Hamburg derived his robust conformation is hard to tell. Nothing like his sire, the famous Hanover, and not in the least resembling his dam, Lady Reel, which was fashioned on the saddle horse type.

The Hamburg of New Jersey was not the Hamburg of Kentucky. Hamburg's success as a stallion of recent years has been approached the success that was his when he stood for service out at the La Belle farm on the old Frankfort pike and we now face a most serious situation and stand in imminent danger of losing the Glencoe line in tall male altogether. Burgomaster has practically done nothing to keep things going. I see and hear little or nothing nowadays of Handsome, Handsel, David Garrick & Co., and it will be nothing short of a national calamity if this splendid, and at one time all conquering line of Glencoe, is permitted to die out.

Extraordinary as it may seem, I am constantly being told that breeding race horses is a mere matter of chance. It is not, but the reason American breeders do not appear to take the interest or apply themselves to the study of blood lines as they should. No one can with any certainty breed a race horse, but I am thoroughly convinced that by following certain set rules the average in favor of the breeder who recognizes the value of balancing up the blood lines will be far and away better than that of the man who leaves everything to chance. How comes it that these stallions of Herod descent turn into such splendid broodmare sires? It is the same old story. Hamburg in the lead this year, followed by his sire, the matchless Hanover, which died so long ago as 1890, so that the youngest of his daughters cannot be less than fifteen years of age, and when, as I wrote you last winter, daughters of Hanover were in their prime. Hanover stood out in a class by himself as a broodmare sire and was moreover followed by his own sire, Hindoo, which still takes high rank as a sire of good broodmares. Exile, too, another Herod, stands this year well up in the list.

Taking all this into consideration, would it not be well to make some sort of concerted effort to save the Glencoe line from extinction? The house of Hanover is the only line in the world today which traces direct to Glencoe, but it is apparently doomed if something is not done, and done quickly, to save it from the fate of the lines of Diomed, Lexington, Leamington, Billet and Rayon d'Or.

When dissecting the pedigrees of Regret, which, by the way, on account of her beautifully balanced pedigree as much as anything else, I selected as the winner, and Regret is sister to the most recent winner of the Futurity, the pedigree, however, will stand repetition, for a study of the different strains of blood herein embraced should do much towards convincing stud masters and breeders generally that good does come from a proper balancing of the three great lines of Herod, Matchem and Eclipse.

If per chance the house of Glencoe is doomed, the house of Bonnie Scotland, on the contrary, is just now going strongly. Indeed, not only through the activities of the offspring of Broomstick, but also by way of Delhi, whose son, Dominant, is a big advertisement for the Bonnie Scotland line. Beautiful little Broomstick, I well remember driving out to the Kentucky Association course, in company with the late Major Bringerfield, to have a look at Broomstick, shortly after his retirement from the turf, and we both concluded that he was about the most perfect piece of horseflesh we had ever looked upon. Afterwards Broomstick was put up for auction at Horseman's Headquarters—now unhappily no more—and knocked off to Mr. H. P. Whitney, Charles W. Moore, proprietor of the Mere Hill Stud, being the contending bidder, but of course the Whitney millions could not successfully be combated and the horse was taken to Red Bank. I would have preferred to see the son of Ben Brush remain in Kentucky, where he got his English classic winner, Sweeper II., as was her dam, Sylvabelle, by the flaxen-tailed Bend Or, Jersey Lightning, herself a chestnut, is a grand daughter of the chestnut Hanover, and Daisy F., Modesty and Ballet all were chestnuts. Broomstick's sire, Ben Brush, however, never so far as I can ascertain, sired a chestnut, and I take it that Ben Brush is a pure dominant as regards color. I have questioned many and in every instance have received the same answer: "No, I never saw a chestnut Ben Brush." This ability, however, to control color has not been transmitted to Broomstick.

Looking to the future, is history to repeat itself and next Kentucky Derby day witness a second Whitney triumph? Just to think of any one stable sheltering two such cracks as Thunderer and Dominant, with Broome to fall back on. All this reminds one of the days when the white, blue-spotted jacket was carrying all before it. Moreover, Broomstick is really Castleton-bred, as are Instant and the western champion, Balise, which is Kentucky's main dependence for next year's Kentucky Derby. I trust these top-notchers may next spring come successfully through the ordeal of early training and that the eastern contingent, encouraged by their success of this year, may be once more with us and, as matters now stand, the easterners appear to have the key to the situation.

of Nish, and to a possible junction with the Bulgarian invaders. While the Austro-German crossing of the Danube into Serbia proved a success, the Serbian version today was still to the effect that the Teutonic troops had not yet managed to get to the Serbian banks of the rivers Save and Drina. Hard fighting was reported along both streams.

The latest statement of yesterday from Berlin said: The war office announced today that both the town and fortress of Semendria were captured yesterday. The Austro-German forward movement over the whole Serbian front is making good progress. Advices from Sofia to the Berliner Tageblatt, the Overseas News Agency says, quote Dr. P. Vatcheff, president of the Bulgarian parliament, in the Balkansha Pochta, as follows: "Since the Austro-Hungarian and German troops are approaching territories which are claimed by us, Bulgaria must defend her interests, for Austria-Hungary and Germany will understand that it is incumbent upon Bulgaria to occupy these territories."

Prince Frederic of Thurn and Taxis died in a Russian base hospital after being wounded in battle with Russian raiders in the Vilna Salient, according to a Petrograd dispatch.

## HIGH NOON IS A VICTOR

TAKES THE COLUMBUS HANDICAP AND DEFEATS A CHOICE BAND OF SPRINTERS.

Laurel Track Improving Into Good Condition and Attendance Is Large—Halter Men Busy and Racers Change Ownerships.

Laurel, Md., October 12.—High Noon, an added starter running in the colors of James Butler, won the Columbus Handicap, the feature race here this afternoon. He was ridden by jockey J. Butwell, was a forward contender from the start and, after disposing of the pace-maker Hanson on the stretch turn, outstayed Dodge in the final drive. There were eleven starters and several were crowded back in the early running. Water Lady, after beginning slowly, was closing up resolutely in the home stretch, when she was cut off at the sixteenth post and, whatever chance she had of winning, was ruined. Kewessa became involved in a jam in the first eighth and ran under stout restraint until in the last half.

The racing conditions were ideal, the weather being warm and the track in good condition. The attendance was larger than on any day aside from the two Saturday's and speculation was brisk.

Idolite changed hands after he was beaten in the second race. Sam Louis claiming him from E. P. Stelle for \$1,100. H. G. Redwell has purchased from Capt. C. K. Rockwell the plater Mr. Sniggs.

The haltermen were again busy this afternoon. Daddy's Choice was advanced \$605 over his entered price of \$600 by A. C. Parretto and was bought in. After Eagle won the fifth race he was bid from \$800 to \$1,400 and bought by Emil Herz.

The two choices in the sixth race yesterday that failed to finish in the money changed owners after they were beaten. Republican was claimed by C. C. Smithson, while J. B. Goodman took Borgo from R. T. Wilson. Each horse cost his new owner \$1,400.

There are many horses quartered at the Benning course this fall and several of the stables will remain at that track to go into winter quarters. Among the owners who have decided to remain there until next spring are W. T. Anderson, Richard F. Carman, W. P. Burch, M. D. Dyer, J. S. Tyree and Samuel Ross. It is no sure thing that the Sanford horses will be wintered at Benning. It is just possible that the stable will be shipped from Maryland back to the farm at the conclusion of the Pimlico meeting.

Joseph Edwards, who has been at Gravesend trying out the Waterson yearlings, returned this morning. He is well pleased with them and hopes to develop a couple of high class racers from the band. Dorados, a two-year-old in the Marrone Stable that was highly thought of, died as a result of fever contracted while en route from Toronto to Maryland.

Prohibition, which fell during the running of the Blue Point Selling Stakes, came out of the mishap with a sore shoulder. James Arthur, his owner and trainer, hopes to get the colt in condition for racing at Pimlico.

Herman Flippen made a hurried trip from Virginia to Benning yesterday and shipped the steeple chaser Lizzie to Richmond. Lizzie Flie will be a starter in the races to be run in connection with the Richmond fair.

## TIMELY TURF GOSSIP FROM KENTUCKY.

Latonia, Ky., October 12.—Manager John Hachmeister expects Ladies' Day to surpass that of any other similar day given at this track. He expects that the grandstands on Wednesday will be filled to overflowing with the fair sex, admirers of the thoroughbred horse and racing Secretary Henry Chase Lizzie to Richmond. Lizzie Flie will be a starter in the races to be run in connection with the Richmond fair.

On Wednesday Handicapper Jasper will announce the weights for the Fort Thomas Stakes, which is the big feature race for next Saturday at the Latonia track. This event carries \$2,000 in added money and has fifty three nominations. Trainer Dan Lehan is endeavoring to fit A. P. Humphrey, Jr.'s Ashland and Kentucky Oaks winner of 1914, Bronzewing, for the Latonia Cup at two miles and a quarter, the big race of the entire present autumn meeting, which is set to be run on Wednesday, October 27. The filly pulled up apparently sound after a recent race at Louisville and her trainer has high hopes of getting her to the post in this, the richest race of the entire autumn circuit of the sport in Kentucky for 1915. In 1913 Lehan won this race with Sir Catesby for the owner of Bronzewing. This will probably be the last race of her career, as Mr. Humphrey intends to send her to the stud next spring.

Among the horsemen at Latonia that are this early booked to leave on the Juarez special at the close of the meeting are R. Ripley and Frank Rector. Ripley has, at present, only three horses, but he expects to secure close to a carload for shipment to the Juarez track by the close of the meeting here. Rector also will have quite a stable to take to Juarez, including all those owned by W. E. Phillips, the recently-appointed patrol judge on the Kentucky tracks. Phillips also intends to spend the winter at Juarez, but on account of his position now, he has turned over all his training interests to Rector.

Phillips undoubtedly has the ability to prove as good a patrol judge as ever held this position on an American race track. He has had vast experience as a trainer of horses, with jockeys, and is well fortified with actual knowledge to care for the best interests of a race track in this important position. Among the noted horses that he developed and raced when he had Fred Cook as his racing partner, were English Lad, Geo. C. Bennett, Haviland, Beautiful Bess, Lawrence P. Daley and Minnie Adams. One of his jockey developments is the famous rider Dave Nicol, who, while in his service, was selected from among all the riders of America by trainer James Rowe to ride the immortal Synchrony in several of his greatest stake races. Nicol also rode in foreign lands with success.

Phillips has some good young horses to turn over to Rector to take to Juarez for the coming winter. His yearlings are the best that he has yet raised by his noted horse English Lad.

A. S. Labold, whose slight sickness prevented him from attending the recent Louisville meetings at Douglas Park and Churchill Downs, is now a daily visitor at the Latonia track and experienced quite a thrill last Saturday when Christie, now a member of the J. B. Respass stable, reached home in front in the second race with comparative ease. Labold bred Christie and he is from the mare Chulita, which is the only thoroughbred broodmare this Cincinnati turfman now owns. She has had two foals and they are both winners, her first being the filly Volita. She is now apparently in foal and her produce will be either a son or daughter of T. C. McDowell's noted Derby winner The Manager. Chulita was a brilliant race mare, having to her credit, among other races, both the Cincinnati Trophy and the Latonia Oaks.

## GENERAL NEWS NOTES OF THE DAY.

In reply to a question asked in the house of commons yesterday as to whether the government was still allowing cotton to go into Germany in certain cases, or under certain circumstances, Sir Edward Grey, the secretary for foreign affairs, stated that raw cotton, cotton waste and cotton yarn all have been declared contraband and that every possible step has been taken to prevent any supply of these from reaching Germany. It was intended, the foreign secretary added, forthwith to declare as contraband cotton piece goods and other cotton products and prohibit the export to neutral countries contiguous to Germany and Austria of such goods, capable of being used in the manufacture of explosives.

According to a claim from Petrograd, Russian forces have pierced the Austro-German lines on the Strpa river in eastern Galicia. They have already taken prisoner more than 2,000 officers and 60,000 men and have captured four guns and ten rapid-firers. The Russian advance is being pushed vigorously.

Admission that German losses have been heavy in the last few days on the western front is made by the correspondent of the Berlin Tageblatt in an Amsterdam paper, who declares that within a brief period the French have fired more than 3,000,000 shells against the German lines.

British casualties reported since October 1 amount to more than 21,000. The week-end casualty list published yesterday gives 290 officers and 4,790 men. This brings up the total casualties published in the London papers since the first of the month to 981 officers and 29,351 men.

Letters received at The Hague from Brussels state that Brand Whitlock, American minister to Belgium, is confined to his bed. His illness is due in part to the strain to which he has been subjected as mediator between Belgians and Germans.
